DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 5-7 and 13-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 5 and 13 are allowable over the prior art of record since the cited references taken individually or in combination fail to disclose **adding timing information to the payload when crossing the first boundary and using this timing information to regenerate frames in the second sub-network upon crossing the second boundary, so that frames in the second boundary have substantially the same duration as corresponding frames in the first sub-network.**

It is noted that the closest prior art, Cook (US 2002/0103926) discloses regenerating frames in a second network. However, Cook fails to disclose or render obvious the above underlined limitations as claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
